**SEI Comment Report**

---

this class was such a wonderful release in my schedule and I couldn't have asked for a better teacher. Bitá really was the best professor I could have asked for

---

This class is really fun and relaxing and well organized. We had the chance to be exposed to different contemporary dance practices and to work on projects together. My interests in contemporary dance grew over the semester and I think I will continue enrolling in dance classes in the future.

---

I really enjoy the class. Thank you Bitá?

---

Bitá is a very nice instructor. I'm very appreciative of her patience.

---

I would have liked the instructor to be present on days when we had a guest instructor.

---

You really created an environment where we could feel comfortable dancing and doing something new. Thank you so much for this semester!
